SOUTH BEND-LAPORTE-ELKHART, INDIANA, MILK MARKET NEWS

Federal Order No. 67  
U. S. Department of Agriculture  
Agricultural Stabilization and Conservation Service  
Telephone: Atlantic 8-2571

Market Administrator  
220 South William Street  
P. O. Box 216  
South Bend 24, Indiana

Issued for Information of Producers  
Who Are Not Members of Cooperative Associations

Vol. V, No. 6

June 1961

MAY BASE PRICE \$3.98

Dairy farmers will receive a base price of \$3.98 for May 1961 deliveries of Grade A base milk to handlers under the South Bend-LaPorte-Elkhart, Indiana, milk order. The base price is based upon a butterfat test of 3.5 percent, and will be adjusted by a differential of 7.3 cents for each one tenth percent that tests vary above or below the 3.5 percent standard. This price is 25 cents more than the base price of May 1960.

MAY EXCESS PRICE \$3.19

May 1961 deliveries of Grade A excess milk to handlers under the South Bend-LaPorte-Elkhart, Indiana, milk order will be paid for at the rate of \$3.19 per hundredweight for 3.5 percent milk and adjusted by the same differential of 7.3 cents as is used for base milk. These minimum prices are subject to a 4 cent per hundredweight marketing service deduction, together with the authorized hauling charge. For comparative purposes, a uniform price of \$3.84 per hundredweight was computed, which is 25 cents more than a year ago and 7 cents less than April 1961.

PRODUCER RECEIPTS

Producer receipts were up almost two million pounds in May over April; however, the daily average increase was only 8.8 percent. With the Class I sales staying almost the same, all of the extra milk produced went into surplus and lowered the Class I utilization to 67 percent of the total producer receipts. The daily herd average was at an all time high in May, reaching 784 pounds per producer per day. This is 47 pounds more than the previous high, which was February 1961, and 74 pounds more than May 1960.

CLASS I SALES

Sales stayed about the same as April on a daily basis. A slight decrease of .6 percent might be caused by the end of the school year the latter part of May in some parts of the marketing area. The decrease from May 1960 of 26 percent can be attributed to the loss of two handlers to another Federal market.

CLASS I PRICE

The Class I price for the June 1961 delivery period will be \$4.11 per hundredweight for 3.5 percent milk. This price was computed by adding \$0.90 per hundredweight to the average condensery pay price (\$3.19) and the plus two cent supply-demand adjustment. The supply-demand adjustment for the July 1961 delivery period will be a plus two cents.
